Horns. I saw a dinosaur.

By Josh

What did you feel like?
I felt happy.

What did you see?
I saw a lamb with cool

What did you hear?
I heard singing
music.

By Dylan

FROM GRADE 3/4J - On The Holidays

On the holidays Mum, Nana and I went to Beechworth. We had lunch there and I had a bee sting. Then we went to Albury. When we got there it was night time, so we went to bed.

In the morning I had breakfast and went outside to feed the animals. One cow chased me and the deer’s came up and ate out of my hand. I also saw the ducks and chooks.

We were going to stay in a little house nearby, but it was too dusty.

I asked Mum if I could wash the dishes and now I have to do it every night, but it is fun. When I helped Mum hang out the washing, the cows had pooped on the ground.

When Mum was asleep the cows were under the house, making it shake. The cows were black and white, but I didn’t like the fully black cow. It totally freaked me out. It looked scary. It always looked like it was going to charge.

We took them into the crusher. When we left, I wrote a poem for them.

Their hens didn’t lay eggs, so I tricked everyone by grabbing an egg and I said that the hens had laid it.

Going to the farm was lots of fun. The best part was playing with the animals and I can’t wait to go there again.

By Poppie

On the holidays Dannii, Adele, James and I went ferreting. We put nets over the burrows and we also put cages in the burrows. Then we got one ferret and put it down the burrow.

After that we put the rest of the ferrets down the burrows, then we caught a rabbit. Next we went back to the dairy farm. Following that we went back to Dannii’s house and we put the rabbit in the cage.

It was fantastic when we put the rabbit in the cage. I enjoyed ferreting with my family and friends.
